

"Most Livable City"
U.S. Conference of Mayors

September 25, 2006

Attorney General Terry Goddard
1275 West Washington Street
Phoenix, AZ 85007

Dear Terry:

On behalf of the City and the Scottsdale City Council, thank you for speaking at the Mayor and Council Breakfast forum last week. As usual, you energized the stage with your words, wisdom and authority about the dangers associated with methamphetamine labs and efforts underway to curb access to pseudoephedrine, the key ingredient used to produce meth. You realize more than anyone else just how important it is that all communities in Arizona and throughout the United States spread the word about the inherent dangers of meth use/production and about the need to work collaboratively to fight back.

I also know that I may speak for many others who greatly respect your hard work and dedication as Arizona's Attorney General. The impact you have made on the meth issue is only one of the important programs you have offered to Arizona's residents. I also admire the work underway related to Colorado City, your office's efforts to increase education and assistance to Arizona residents about consumer fraud and identity theft, and the new program you have helped launch called "Cut It Out" to address the growing concern and impact of Domestic Violence in Arizona.

Lastly, you may have noticed that we were taping the program you participated in last week. The reason we did that is to re-air the segment on CityCable 11. It will be shown to thousands of Scottsdale households on Mondays at 2 p.m., 6 p.m. and 9 p.m. Terry, thank you for what you do for the State of Arizona and for your continued support of the City of Scottsdale.

Sincerely,

Mary Manross, Mayor
City of Scottsdale
